ANTI-TOXINE UNSUCCESSFUL.
 New Diphtheria Remedy Applied, But Did Not Prove Efficacious.

Mrs. Bernard McCoe of 44 Edwards street, whose husband is janitor of the free public library, was last night lying at her home in a critical condition. For several days she had been suffering from a diphtheritic sore throat, and on Friday last anti-toxine was administered. The effect was to reduce the membrane, but the patient's system was so shocked that she sank rapidly and last night her condition was said to be extremely critical.

Saturday the anti-toxine was again administered, but she continued to grow worse, and that evening a consultation of physicians was held. Those present at the consultation were Dr. Wright, Dr. Swayne and Dr. McNeil. Since that time consultations have been held daily.

Dr. Wright said last night that the anti-toxine had done all that could have been expected of it in reducing the membrane and that since it was administered symptoms of pneumonia had developed, and it was from this disease that the woman was now suffering. On the other hand one of the other physicians in attendance on the case stated that he had been unable to discover any symptoms of pneumonia, and that the conditions were practically the same as when the anti-toxine was first administered.

The Diamond Johnson Case.

Norwich, Jan. 28.—The "Diamond" Johnson case was on all the afternoon until nearly evening to-day in the probate court. This afternoon Mrs. Johnson introduced several witnesses in her side of the case. Among them were Dr. Cassidy of Norwich and Dr. LaPierre, both of whom testified that Mrs. Johnson was fully competent and sound in mind to care for her own affairs. After the examination of Dr. Cassidy the court adjourned the case until February 18, when the counsel on both sides will make their arguments.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact, are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief. 25¢ each 3¢ 10¢.
